

Hello, we are the Recyclabots! With the help of our friends at EMR Metal Recycling and Currys PC World, we are here to tell you about metal and how it can be recycled.

**ORE'TIS**

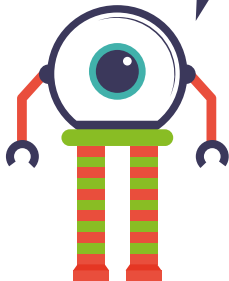

**ORE'TIS** – I like to tell people all about different types of metals and where they come from.

**ELECTRON**

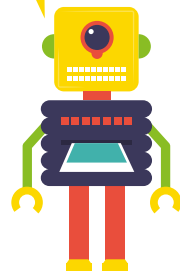

**ELECTRON** – I like talking about waste electrical items and what is inside them.

**SYCLE**

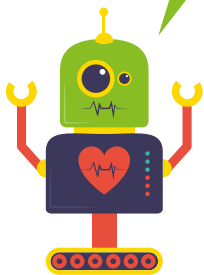

**SYCLE** – I love telling people why it is good to recycle.

**MAGNE'TOM**

**MAGNE'TOM** – My job is to tell people how we recycle metal.

**PLAS'TIM**

**PLAS'TIM** – It's not all about metals you know! I love telling people how plastics can also be put to new uses.

Now you've got to know all of Recylabots, why don't you have a go at creating your own robot? Let us know what your robot is made of and what they like to talk about!

.....  
**WHAT IS YOUR ROBOT  
MADE OUT OF?**
